COPD in long term care is a complex disease that has a significant impact in our sector. The OLTC has developed an innovative quality based best practice to address the complexity of COPD in long term care. Don't miss this opportunity to gain practical knowledge about the **OLTC COPD Protocol** and how it can assist your homes and most important, improve the quality of life of the residents we serve.

You will

- Gain practical knowledge about the OLTC COPD Protocol
- Become familiar with best practice tools for medication management
- Understand how and why the program was developed
- Get started on adopting the OLTC COPD Protocol (this is the future in LTC)
- Be among the first to learn about the new model of care

Please RSVP to confirm you will be attending this important educational event.
